Mr. Carl Loscy
P. O. Box 418
Fruita, Colorado

Dear Mr. Loscy:

This is to acknowledge receipt of your notice of intention to drill Well No. Page-Gov't. #1, which is to be located 1344 feet from the south line and 1762 feet from the east line of Section 10, Township 21 South, Range 23 East, SLM, Grand County, Utah.

Please be advised that insofar as this office is concerned approval to drill said well is hereby granted in accordance with the Order issued in Cause #2, on the 28th day of June, 1956. However, this approval is conditional upon a Plat being furnished in accordance with Rule C-4 (a), General Rules and Regulations and Rules of Practice and Procedure, Oil and Gas Conservation Commission, State of Utah.

This approval terminates within 90 days if the above mentioned well has not been syudded in within said period.

Very truly yours,

OIL & GAS CONSERVATION COMMISSION

August 1, 1961

Mr. Carl Losey
P. O. Box 418
Gruita, Colorado

Re: Wells Nos. Bardwell-Gov't. #1 in SW $\frac{1}{4}$ of Sec. 10, T. 21 S., R. 23 E.,
and Page-Gov't. #1 in NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec.
10, T. 21 S., R. 23 E., Grand County,
Utah.

Dear Mr. Losey:

It has come to our attention today that you have accused this office of releasing confidential information with respect to one of your wells in Grand County. We would like to point out that as of this date we have never received a written request from you asking us to hold any information on these wells confidential. We have carefully checked the files on the above mentioned wells and there is no remark on any of the forms submitted by you to the effect that this information was to be held confidential or that either of these wells were tight holes.

The scouts for Utah Oil Report and Petroleum Information check our files daily. All files not being held confidential under the Oil and Gas Conservation Act are classified as public records and available to anyone who wants to inspect them. This is not the case insofar as the U. S. Geological Survey is concerned, they are only required to allow their records to be inspected by interested parties.

It should be noted that under the Oil and Gas Conservation Act that anyone falsifying these records is subject to a \$5,000.00 fine.

The integrity of this office has never been questioned and we intend to see that it is never questioned in the future.

If you have any complaint it would be greatly appreciated if you would notify us immediately.

Very truly yours,

OIL & GAS CONSERVATION COMMISSION

GLENN B. FRIGHT,
EXECUTIVE SECRETARY

Mr Cleon B. Feight
Executive Secretary
Oil & Gas Conservation Commission
Salt Lake City, Utah.

Sir:

In the past, I have always done my best to work with all of the various departments, both State and Federal, not only with the operations of my own, but information which I felt would help on outside operations.

I regret very much that you felt it necessary to add in your letter, what to me, in my opinion, were a bit of Threat— the integrity of your office being questioned and also as to falsifying records being subject to a fine of \$5,000.00.

I have never made any complaint against you or your office, therefore it dont get the best to get such a letter from you.

Yours Truly

Carl Losey

August 4, 1961

Mr. Carl Losey
P. O. Box 418
Fruita, Colorado

Dear Mr. Losey:

We are sorry that you were offended by our letter of August 1.

Mr. Harvey Coonts, our engineer in Moab, informed us that you had complained to him that this office was releasing information that you had requested to be held confidential, and that you also said you had given us well information different than the information filed with the U. S. Geological Survey in order to determine whether this office or the U. S. G. S. was releasing information that was confidential. Mr. Coonts also sent us a memorandum containing the same information which he had given me over the telephone. There was nothing to be gained by Mr. Coonts in making this type statement, so we presumed that it was true.

Our letter was not intended to be a threat-- it was simply a statement of fact with respect to the requirements of our rules and regulations, and the policy of this Commission concerning confidential information.

Prior to receipt of your letter of August 3, we had nothing to indicate that you desired Wells Nos. Page-Gov't 1 and Bardwell-Gov't 2 to be held confidential. Now that we are in receipt of your request, you can be assured that any information submitted to this office or to our engineers will not be released.

Yours very truly,

OIL & GAS CONSERVATION COMMISSION

CLEON B. FEIGHT
EXECUTIVE SECRETARY

P. O. Box 418
FRUITA, COLORADO

August 7, 1961

Mr. Cleon B. Feight
Oil & Gas Conservation Commission
Salt Lake City, Utah.

INRE: Your letter
dated August 4, 1961

Friends:

Concerning your engineer, Mr. Harvey Coonts, of Moab, Utah. I like the lad very much and I can assure you that HE is very consciencious and tries to work with everyone, while at the same time protecting the interests of the State. You can be assured that at all times I will be helping him when ever I can, on other matters as well as mine.

You will note in my report on the A Lansdale well, that I ran the casing and HAVE NOT CEMENTED. I have had nothing but bad luck on this well. First, a 1000 Mayhew rotary was rented to do the job- immediately it began to fall to pieces and for over a week, we did almost nothing but repair it. Naturally, I had to spud to get things going and doing that got a depth of 56 feet, where I ran the surface casing. Then I was to let Coonts know on cementing * but again the rig went haywire, (have spent over \$250 on repairs up to now) then the RAINS CAME— Out went the washes- got a cat to rebuild the washes and the roads and more rain - Then last Thursday, about a 10:00 AM. I saw it coming and got the driller and his car and the people with the dozer-cat out and through the wash. BUT I got caught and it washed a brand new 1961 chevrolet pick up down the wash for about a half mile, 7 PM in the evening. Walked four miles through rain, mud and water for help. Got another dozer and got the pick up out of the wash, where it had luckily lodged against where the bank had fallen in. It is now in the shop. Went in yesterday with the cat to again rebuild the two washes and road and now have them working again. BUT when I got to the rig the Driller had been up on the rig working on it and jumped down off it and badly sprained his foot, so had to take him to the doctor. I HOPE TO BE RUNNING AGAIN BY TUESDAY. This was one well, I was trying to get down in a hurry, ????? As soon as can will call Coonts or your office to cement the surface casing in. It is so D-m hot, I may start working at night to save men and equipment. But will notify in any event.

On the A. Lansdale well, as yet I have had no notice to make it a Tight hole, therefore it will be open until I let you know.

Thanking you for your letter of August 4, I beg to remain, yours truly,

Carl Losey
Carl Losey

PS: On the June reports, I just cant explain it, as I just make it another carbon copy when I make up the government report, so I guess the book is now closed on that also.

Re: Well No. Page-Gov't #1
Sec. 10, T. 21 S, R. 23 E.,
Grand County, Utah

Gentlemen:

Our records indicate that you have not filed a Monthly Report of Operations for the months of July, August and September, 1962 for the subject well. Rule C-22 (1) of the General Rules and Regulations and Rules of Practice and Procedure, Utah State Oil and Gas Conservation Commission requires that said reports be filed on or before the sixteenth (16) day of the succeeding month. These reports may be filed on Form OGCC-4, "Report of Operations and Well Status Reports", on Company Forms containing substantially the same information, or on U. S. Geological Survey Form 9-329, "Lessee's Monthly Report of Operations".

We are enclosing Form OGCC-4 for your convenience. Also, if you still wish these wells to be held "Confidential", please mark all reports and logs as such. Thank you for your cooperation in this matter.

Very truly yours,

OIL & GAS CONSERVATION COMMISSION

CONNIE F. PALOUKOS

County, Utah.

Dear Mr. Losey:

Upon checking our files we note that on your Monthly Report of Operations OGCC-4, you have stated that the lease for the above mentioned wells was being appealed.

It would be appreciated if you would fill out the enclosed Forms OGCC-3 for each well and return them to this office.

When you resume operations on these wells please advise.

Thank you for your cooperation in this matter.

Very truly yours,

OIL & GAS CONSERVATION COMMISSION

MEMO FOR FILING

Re: Carl Losey

- (1) Well No. State #1
(Rework) Ramay Well
- (2) Well No. State #1
(Abandoned location)
- (3) Gas Well
Sec. 26, T. 21 S., R. 23 E.,
Grand County, Utah

After a careful review of the files on the above wells, the following is placed in the file to assist in determining which well is which and what operations were performed. All of the above wells or well locations are in the southeast $\frac{1}{4}$ of Sec. 26, T. 21 S., R. 23 E., SLM, Grand County, Utah

In the case of (1) above, State #1 (Rework-Ramay Well), Mr. Losey moved over this hole and attempted to drill it deeper. The exact depth was and is unknown. The status of this hole is open and uncapped.

In the case of (2) above, the State #1 (abandoned Location) was never drilled. Mr. Losey requested permission to drill this well in December, 1959. Permission was granted in January, 1960 but the well was never drilled.

In the case of (3) above, (gas well) this well was drilled by an operator whose identity is undeterminable from information in the files. This well was completed as a gas well, has a Christmas Tree on it and the shut in pressure is around 250 psi. I witnessed a test on it in February, 1965. It flowed around 68,000 cubic feet of gas per day.
